PLEASANTVILLE, NEW YORK  
JANUARY 2006

Posted by David Reuther, Tuesday, January 24, 2006 at 11:52 AM to Kathryn Cramer's web site

This blog on Consultants Advisory Group and Top Cat Security raises many questions about the credibility of this report. For starters the alleged UN PPT looks fake and the source is an allegedly missing person. The PPT seems to be marked UN Restricted so why did Cramer publish this on the Internet?

What is the email address and telephone number of the source? Is the source Sage or Puello? Who are these people? What is the email address for Sage and Puello? What contact numbers are available? The writer says she spoke to Puello by phone apparently after her alleged detention. What did Puello say?

In another article written by Mark Turner at the United Nations dated Wednesday, 18 January 2006. Statements made by the UN's Top Cop Mark Kroeker appear to contradict Cramer's postings:

"The situation in Haiti's Cité Soleil slum now resembles the worst drugs wars in Los Angeles' history yet the outside world is failing to muster the will or resources to stop it, the United Nations' top policeman has warned".

"No bird in the air. No technology for listening to anybody. No money to pay informants. No skilled people to work the boats and put the aircraft out

watching the landings and take-offs. No radar,” says Mr Kroeker. The boats the police do have lack fuel”. -----

I also read the alleged correspondence with Valerie Sendeki. Could this person be former USMC Captain Valerie Sendeki? Did you research the ADLN when Sendeki advised you that you were complicit in a smear campaign staged by them? I did and Cramer should have prior to posting anything. The statements allegedly made by Sendeki seem plausible that they (ADLN) fed Cramer false information. Did Cramer vet this information? Did she publish it regardless of the possible consequences?

Here’s what I found on the Internet about the “Dessalinien Army of National Liberation” (ADLN) in Haiti:

February 2005 - Six policemen were killed -four of them in the first Carnival’s night in the Capital City -by presumed men dressed in camouflage uniforms-, one injured and other five kidnapped along February 2005. During the period, the HNP received 14 attacks -to policemen by foot, mobile patrols and Police Stations- 9 by gangs in Port-au-Prince, 1 by unknowns in Cap-Haitien, 1 by ex-FADH in Terre Rouge (Central Department) and 1 by paramilitaries from the Northern Front of the “Dessalinien Army of National Liberation” (ADLN) in Plaisance .

Further, on Friday 16/12/05 a Chilean Military

Patrol came under attack in "Plaisance", about 35 Km NE of Gonaives. Three soldiers of the MINUSTAH wounded at the time of an ambush with Plaisance Port-with-Prince, December 17, 2005: Yesterday, Friday December 16, at 16 hours and 45 minutes, at least four individuals in ambush and heavily armed shot at soldiers with the Mission from the United Nations for Stabilization in Haiti (MINUSTAH) in patrol in the locality from Pleasure, located at 30 kilometers in the southwest of Cape-Haïtien (Department of North). The attackers wounded three soldiers of peace. The troops of the MINUSTAH counteracted the shootings, forcing the attackers to escape. The wounded blue helmets, all three of Chilean nationality, were immediately transported to the headquarters of the Forces of the MINUSTAH in the Cape-Haïtien, to undergo there emergency care before being evacuated on the Hospital of the MINUSTAH with Port-with-Prince. According to the medical assessment, one of the soldiers, a second lieutenant, was wounded with the hand like with the thigh; another, a corporal, was wounded with the thigh and the third, corporal also, underwent a damage to hearing. Their life is not in danger.

## A MANIFESTO FROM THE ADLN

For: MINUSTAH occupation forces, the de facto government, the press and the Haitian people

Dessalinien National Liberation Army (ADLN)  
Communique No. 0104

From: Command of the Dessalinien National Liberation Army (ADLN)

On October 24, 2004 at half past midnight, the ADLN's Artibonite Front surrounded the Gros Morne police station and asked the policemen to surrender. We clearly told the policemen to come out with their hands up, without weapons, through the front door of the station. We told them that if they did that, nobody would get hurt.

Two policemen chose to disobey the order we gave. They tried to escape out of the station's back door. The unit covering the back of the station had to fire on them, and one of them was wounded. Another ADLN unit had to fire on a vehicle which tried to enter into the zone of operations. The ADLN column, which was very disciplined, entered the police station and took control of and removed from the scene a policeman who left out the front door as we had asked. Nothing happened to him. The station was empty. There was no furniture. We saw only three mattresses and a prisoner who was an old man.

This attack by the ADLN's Artibonite Front on the Gros Morne police station is a warning to make known that the Dessalinien National Liberation Army (ADLN) has begun to fight for the total liberation of the Haitian people. We note that several of the press reports we heard about the ADLN attack on the Gros Morne police station spoke of a "bandit army"!

Once and for all, we make it known that the ADLN is not a mercenary army nor an army of bandit thugs. That is why, during the Gros Morne operation, when the ADLN unit met on the road with two groups of young men and women who had just left a disco, those people were not aggressed in any way. The guerrillas did not steal their possessions the way the zenglendo, Macoutes, and demobilized soldiers do everywhere around the country.

The warning we gave on October 24 was for:

1) MINUSTAH which is acting as a puppet for the United States.

2) The incompetent de facto puppet “technocrat” government of Alexandre and Latortue.

3) The so-called former “rebels,” former soldiers, former FRAPH members and Macoutes who have reemerged.

4) All the reactionary forces which hold the country in ignorance and misery for decades and who enjoy and take advantage of the crisis tormenting us today.

We say to all these little clique sectors that they cannot hide. ADLN will find them on the day, date and time of its own choosing.

We note that the MINUSTAH is the armed wing of

big countries, like the U.S., which squeeze and occupy Third World countries like Haiti. Therefore, MINUSTAH is a legitimate target of the armed wing of the popular masses. That is why we call on progressive forces in Third World countries like Brazil, Argentina and Chili, to force their governments to remove their troops from Haiti immediately.

Aspiring for political liberty and a better life with organization, the popular masses can have Haiti take true independence, the same way that Jean-Jacque Dessalines managed to gather the aspirations and demands of the slave masses and freed the country from the French colonists grip. In the same way, the spirit of Dessalines has entered and is beginning to stir up the masses for a second independence. So ADLN tells all combatants fighting the dictatorship to continue the struggle.

Just like Dessalines, ADLN will not rest until the final victory.

Dessalinien National Liberation Army (ADLN)

MEN ANPIL CHAJ PA LOU Many hands make light a heavy load.

It looks like not just once but at least three times Sendeki tried to advise Cramer that the ADLN or Sage was trying to scam her. Why did Cramer persist with her negative postings when

legitimate questions had been raised? If those letters are authentic then Cramer and Sendeckki seemed to be corresponding privately with Sendeckki trying to be very open and forthcoming. Cramer seemed later took one paragraph out of context and used it to justify publishing their dialoged on the net. What is the motivation of Cramer? Is Cramer assisting the ADLN?

I suspect this Cramer blog is nothing more than creative fiction written by a women admits being a fiction editor and who advertises fiction books on her website. Is Cramer just trying to increase the number of web page hits for marketing purposes?

The whole story is utterly ridiculous. I challenge Cramer to be forthcoming and support her statements with facts. Give us the emails and phone numbers of your sources Cramer or admit to making this all up.

I don't claim to "know" Sendecky but I met a Val Sendecky in Haiti at the Marine Corps ball in November last year. I haven't spoken to or seen her since. I am in the Montana Hotel as are most internationals here on business but there is no Sendecky here. That doesn't prove anything as she might be in one of the other 2 decent safe Hotels here; the El Rancho and the Villa Creole.

I'm here and I know the politics and players better than most. Cramer, what you write is fantastic speculation but not reasonable or rational. If you share the email addresses the readers can make their own inquiries and check your facts. I don't believe these emails are for real. Give us the telephone number of your missing Puello and let interested readers call her for ourselves. Do you actually have a number? Is there actually a Puello? Do these emails actually exist? I think these are reasonable questions. If you give me this information and I find you are correct then I'll gladly post that on your site along with an apology.

How do you think that a private company could have people in different countries arrested and their phones and emails tapped? Do you understand how impossible that is? It is not technically or politically possible for a private company to do that. So either CAG was lying or the email

from CAG is fake. There is no other possibility that makes sense. Either way you are posting unvetted, unproven gossip or absolute fiction.

Did you check out Sage? Who did she work for? How did she allegedly get the PPT? If she was with the UN that is easy to check. Your emails claim she was a diplomat ergo she'll be registered at the Ministry of Foreign Affairs. That's easy to check and I'll do that for you. I'll also give you the numbers in Haiti to call yourself.

I'm challenging you prove this story. I'm not attacking you personally. I just feel that there needs to be some sort of journalistic integrity if someone is going to publish information like you have. I don't believe that ABC, NBC, CNN and CBS would be ignoring such a delicious story if it had any merit. The local Media loves stories like this but they aren't running with it either. WHY? The story is all over Haiti now but no with any intellect is buying it.

Prove me wrong Cramer or apologize to your readers the lies you've spread.

Posted by David Reuther, Wednesday, January 25, 2006 at 12:09 PM to Kathryn Cramer's web site

The telephone number to the Ministry of Foreign Affairs is 011 509 298-3761 or 3750. You may ask for Ives Bazile since he has already researched this or speak to anyone else you please. Ives speaks English. There is no Jordan Sage Thomas or any variation on those names currently or previously registered in Haiti. There is no Valerie Sendeki either. All that means is that these two people have never been given Diplomatic registration by TGOH.

The US Embassy RSO Paul Houston has no knowledge of these people. The OSAC Country Council has no knowledge of them either but they have heard of the CAG Spying Story. They said it's a "false rumor". Chairman is David Scott 011 509 445-9838.

The Diplomatic Liaison for the National Police is Commissaire Frantz Mathurin. He would not discuss the matter but did say he felt "anti-democracy forces" made up the whole story. His number is 011 509 427-2107.

I have asked the Haitian Chamber of Commerce to see if their membership has any information today during their regular meeting. I'll report back to you what they say. The contact for the Chamber is Allan Zuraik of Safari Motors. 011 509 246-5001 or 510-8067.

El Rancho Hotel: There is no registration for Sendeki or any woman alone named Val or Valerie. 011 509 257-2080/2082/4926. Hotel Villa Creole: It's the same story there too. 257-1609/1570/1571

Deputy Director of UN Security is Frank Skyzerback. 011 509 458-4923. He says the slides I showed him are forgeries. Cramer please email the complete PPT to me via david.reuther@hotmail.com. The copy on your website is corrupted.

This is what the Deputy Director of UN MINUSTAH forces said about patrol boats and Top Cat Patrols: "This is not true. We (UN) have no boats or private contractors patrolling the harbor."

I have nothing else to do now since my work here is in hiatus. A bored Canadian and myself are determined to find the facts about your story. I fly out Saturday so for the next two days I am investigating this matter.

Also, would you please tell me where I can find the PMC list on Yahoo Groups you mentioned earlier? Is that an open group or do I need a membership to read it?

Please give me the email address and phone numbers of Sage and Puella. The phone numbers will be particularly useful to me and after my investigation I'll report to you what I find out. I intend to write to those email addresses and ask

questions. Perhaps CAG will write or contact me too. I intend to call the phone numbers and talk to whomever answers the phone. I have questions and those parties have answers. I'll report everything just like everything else I've done so far.

I am convinced there is something "rotten in Denmark" with your story. Give me those emails and phone numbers and I can snoop out the facts. Your resistance is starting to look more and more like you have something to hide. Open up and share those emails and phone numbers with your readers.

Posted by David Reuther, Wednesday, January 25, 2006 at 01:27 PM to Kathryn Cramer's web site.

I have never seen any Haitian telephone number within your postings. If you have one please share it and I'll call them immediately but I'm not calling an international number at my expense. Besides, I want to personally verify the facts. I want to see with my own eyes what is really happening.

The bored Canadian works at a major internationally owned telecommunications company in Haiti. He can do great things with phone numbers and emails originating in Haiti or the Dominican Republic.

I'm only seeking to uncover the truth. If you don't provide the numbers or emails then my investigation ends and with it the truth. If you don't give up the information then I'm done.

Why not cooperate?

Posted by David Reuther, Wednesday, January 25, 2006 at 03:07 PM to Kathryn Cramer's web site.

I met Sendeki one time at the Marine Corps ball. From memory she was wearing evening attire appropriate to Haiti and I understood from conversation she was a former Marine Captain. She was around 5'4" with brunette hair, an athletic build and probably in her mid 40's. I remember her because she was bubbly and cute with nice breasts otherwise I would not have remembered her name.

I never thought of using a gun myself but what you suggest is so inconsistent with civilized behavior that I find it more likely the subject of a fiction novelette than an actual corporate practice.

If you call the Montana you will not find me registered there because I am in the residential apartments attached to the Montana. We have private phones.

I need to update my Typekey bio since I'm no longer with GSQ but I am retired.

May I now have the emails and phone contacts I requested? If you wish to send them to me privately that would be just fine.

Mrs. Cramer, I approached this investigation wrong from the beginning. I was angry with you because this type of story adds fuel to the fire in Haiti and I have a vested moral imperative to aid the democratic election process. I have every reason to suspect someone fabricated this story to contribute more negative rumors for the propaganda war here. Rumors have a life of their own in Haiti that become accepted truth despite their factual basis. A lie becomes evidence once sufficient people regurgitate it. This is the way of Haitians and it gets people killed.

I have two days left in Haiti. I would sincerely like to get to the truth. I have real access in Haiti that you do not. I offer you my services privately and agree to report privately to you via email. I promise to reveal all sources to you privately and give you their contact information with one exception: My Canadian friend will be fired if he gets caught providing account information from his job. He is the Telecommunications manager for the largest hub of international satellite access in the Caribbean. He can reveal account information about emails and cellular telephones. This is why I know that the wiretapping you de-

scribed is impossible unless: a gun is used as you suggested or the highest levels of government authorize and cooperate. If we reveal where those emails originated from then we can find the source and speculate on the credibility of the information. Julian needs the IP address, time and date of the email and the email address to SCOPE the transmission. For telephone numbers all he needs is the number to find out the full account information behind it the number is using his network.

Tell me now exactly what you want to find out in Haiti and I'll do this for you. I doubt I can do anything with a Panamanian Corporation because I have no contacts or experience in that area. However I can speak to the Panamanian trade delegation in Haiti or their Embassy if they have one here. That is all I can do with that. I want the Haitian people to know the truth and together as a team we can find the truth no matter where it leads. I am not going to post anything else on your blog unless you ask me to.

I have not been able to contact anyone yet from the Panamanian Embassy. The telephone number listed is: 244-7021 and 7022. These numbers have been busy since 30 minutes ago.

The Panamanian Counsel is Ambassador Gregory Mevs.

I reached them on 244-7022.

The General Consul is: Leida Irma Ramos. She left Haiti yesterday and will be replaced soon.

Gregory "Fritz" Mevs is the Haitian Honory Consul: He knows nothing about Panamanian Corporations. No company named CAG is registered with their office. He suggested that we would need the name they are using in Haiti. The entire Consul office in Haiti is just three persons.

Is this the same CAG you are looking for? Groupe Consultatif De Conseillers

This group is officed near the Ministry of Finance and the Central Bank. I do not know if they are a business or a government agency. They sponsored a high level cocktail reception for the OAS, EU and Haitian Development Board in the Caribe Convention Center on January 5.

Allan Zuraik returned my call and the Chamber of Commerce says the story about CAG Spies and Patrol Boats is false. He can find no evidence there are any patrol boats operating in Haiti. The Commander of the Haitian Coast Guard is Chief Commander Wagnac (I don't have a phone number). According to Zuraik this man stated

emphatically that there are no ongoing patrol outside of Cite-Soliel. That area is gang and drug trafficker controlled.

I exhausted every contact I have looking for CAG, Consultants Advisory Group or Top Cat. I found nothing.

I found a real estate agent who showed apartments to some men from "Groupe Conseillers et Conseillers" which roughly translates to Consultants and Advisors Group. The agent said the men spoke Spanish. They did not take the apartments he showed them but he promised to ask around for them. The upscale apartment community suited to internationals is very small and close knit so the agent has a good chance of locating them.

I am waiting for your permission to take the PPT to MINUSTAH Security. I'm sure it will lead to an investigation so I need to know just how far you want to go. They will want to know where I got it.

Groupe de Consultation et Conseillers

This is the name they are using in Haiti. I got the name from Mrs Buteau, the owner and manager of the Caribe Convention Center where CAG had thrown a party recently. She would not give me a telephone number for them. Just then I received a call from the real estate agent who volunteered the same name Buteau had just given me. He offered to drive me there himself for a small fee. They are operating out of a villa on Rte du Chanlatte in Peguyville right in the middle of the diplomatic and MINUSTAH community. I could not find a street number but that is not unusual here. The large villa has private parking, several buildings inside and local security guards around it. It's a nice older property but not luxurious.

I asked a neatly dressed Haitian man at the property in English for "Consultants Advisory Group". He said in English no one was in (4 o'clock my time). I asked for Valerie. He said she was out of the country. A white man then drove up in a rental car. The guards ushered him inside. He then came over to see why I was at the gate. As he approached I saw that he had a silver badge around his neck from the USP - Unite de Securite Presidentielle. That is a group of American state department contractors who

protect the President of Haiti. I asked him the same things I asked the Haitian man and he said I must have the wrong address. I tried to explain to him what the Haitian man had just said and he replied "Well you should know that Haitians can't be trusted." He told me to leave and instructed the polite Haitian man to come inside. As I turned to leave, the real estate agent asked the Haitian guard in Creole if Groupe de Consultation et Conseillers or Valerie was working or living there. He replied Valerie is out of the country. No confirmation on the company but two different Haitians knew of a Valerie.

The real estate agent said he was positive about the name and the location. He said there were many Americans living inside and the Groupe de Consultation et Conseillers did lease at least part of the villa.

Two of the things I learned in 32 years of government service:

“Do not look a gift horse in the mouth.”

“Always have a plausible denial handy.”

The name and email address of the program manager for CAG in Haiti:

Jay Fullerton jfullerton@caginternational.com

According to a highly placed MINUSTAH source the PPT you provided is a forgery. If you wish to have independent confirmation you may email a copy directly to Bertrand Bourgain, the Chief Security Officer for MINUSATH: bourgain@un.org

Your story made it into the local media creating more insecurity among the embattled population of Cité-Soliel.

I am satisfied that I have uncovered the truth and that is:

There is a group operating under the name of Groupe de Consultation et Conseillers in Haiti.

They are not spying on the elections.

They are not doing anything contrary to the

peace and election process.

They are not related to or connected to Top Cat. Top Cat is not in Haiti. There are no "Top Cat Patrols". There are no coastal patrols at all except for those rarely done by the US Coast Guard.

You were baited into spreading false information that serves the interest of all that is evil and corrupt in Haiti in order to further upset the population.

They aren't hiding so it wasn't really hard to find them. The lack of accurate telephone directories made the effort more irritating than difficult. I've just grown crusty and lack patience in my old age.

I'm pleased they are nothing more than another benign company sucking up the vast millions in international aid money in Haiti. The projects I think they are connected with are all useful ones that ultimately create jobs and support the development of Haiti.

I leave in a few hours and will return one day prior to the next scheduled elections on February 7. Until then this "strange" man is signing off and going on vacation. I need to rest.

Kathryn Cramer Publishes Lies to Harm Relations Between MINUSTAH and Cité-Soliel Residents.

The website kathryncramer.com is being used by an American fiction editor/writer to spread false rumors designed to harm relations between MINUSTAH and the residents of Cité-Soleil. Cramer would like people to believe the UN has hired spies to upset the elections and mercenaries to shoot Haitians from patrol boats waiting in the waters off Cité-Soleil. This is blatantly false. Cramer is lying. To support her claims, Cramer is publishing a set of forged documents and presentations supposedly produced by MINUSTAH. MINUSTAH spokespersons have repeatedly stated these presentations are fakes designed to spread anti-UN propaganda and contribute to the insecurity of the Haitian

people struggling to survive in Cité-Soleil. These lies come just in time to do the most harm as the February 7 elections draw near. The story Cramer tells is a lie with no basis in truth. By continuing to publish these false UN documents Cramer is supporting the evil propaganda of the criminal gangs and the ADLN. Cramer has also been claiming that CAG is somehow involved in these nefarious deeds. CAG is not in the business of spying, conducting surveillance or any form of covert "black-ops" as Cramer contends. CAG is an international management consulting firm actively involved and deeply committed to finding enduring solutions for the complex institutional and infrastructure problems of the nation. CAG is neutral regarding all political matters and sincerely desires to continue its support for the Haitian people no matter which candidate wins office.
